

B.KEOGH & SONS

MANUFACTURING PTY LTD

Roller Mills : effective and efficient processing of cereal grains and legumes is an ever increasing trend in rural Australia, and KEOGH'S purpose built roller mills are specifically designed for stock feed producers, feedlots, dairies, poultry and pig farms. The renowned HAWK-EQUIP range of roller mills enable fast and variable processing, whilst ensuring excellent roll life with case hardened high carbon steel rolls.

B. Keogh & Sons Manufacturing Pty Ltd is Australia's trusted name in commodity handling equipment. For more than 45 years KEOGH'S have been developing and manufacturing grain handling products to meet the needs of rural and commercial producers. In an industry where experience and quality do matter B. Keogh & Sons Manufacturing Pty Ltd is the undisputed leader.

Pictured is a standard HM8RME unit (single deck 200 mm wide rolls) with innovative gear drive (zero maintenance) and standard issue cast iron taper lock pulleys. This unit is on a returnable transport pallet that ensures your mill arrives safely and in pristine condition. The machine comes fully guarded with easy to remove and replace guards, and the entire unit (except guards) is hot dip galvanized.

The HAWK-EQUIP range of Mills starts at the HM4RME (single deck 100 mm wide rolls) that is marketed at the small producer, continuing on to the TRIPLE BANK mills (double deck units that process the grain twice) and finishing with our heavy COMMERCIAL Mills that are impressive to see and use with their large capacity and extra heavy duty construction.

B. Keogh & Sons Manufacturing Pty Ltd – the manufacturers of the trusted and renowned HAWK-EQUIP range of products.

**HAWK
EQUIPMENT**

DESIGNED TO PERFORM – MANUFACTURED TO LAST

Key Features :-

- **Handles all grain types including lupins,**
- **Easy roll adjustment,**
- **Magnetic protection included,**
- **Case hardened high carbon steel rolls,**
- **Hot dipped galvanized finish.**

MILL MODELS AVAILABLE

MODEL	ROLL WIDTH (MM)	MOTOR KW	CAPACITY (TPH)	NOTES
1 Bank Mills				
HM4RME	100	4	2	1, 2, 3, 4
HM8RME	200	5.5	4	1, 2, 3, 4
HM12RME	300	7.5	6	1, 2, 3, 4
2 Bank Mills				
HM4-2RME	100 by 4 rolls	2 * 4	2	1, 2, 3, 4
HM8-2RME	200 by 4 rolls	2 * 5.5	4	1, 2, 3, 4
HM12-2RME	300 by 4 rolls	2 * 7.5	6	2, 3, 4
3 Bank Mills				
HM4-3RME	100 by 6 rolls	3 * 4	2	1, 2, 3, 4
HM8-3RME	200 by 6 rolls	3 * 5.5	4	1, 2, 3, 4
HM12-3RME	300 by 6 rolls	3 * 7.5	6	1, 2, 3, 4

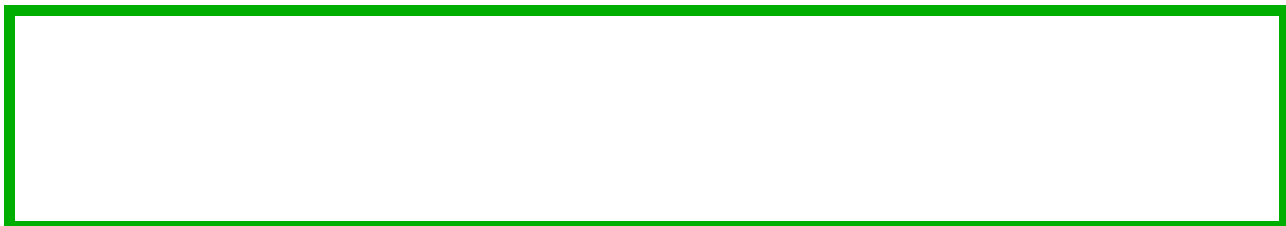

Notes:-

1. Available in 240/480 VAC power.
2. Available in 415 VAC power.
3. Includes soft starter for each motor.
4. Single mill TPH based on clean average wheat, 760 kg/m³.

SPECIFICATIONS :-

1. Designed to process all grain types including peas, lupins and corn,
2. Simple and fast adjustment of rolls for grain gap setting,
3. Spring tensioned adjustable roll to help minimize roll damage caused by foreign body,
4. Simple yet positive flow rate adjustment,
5. Designed for ease of service – takes about 1 hour to remove and replace entire centre,
6. Standard issue magnetic bar protection from iron based objects,
7. Complete with 'hopper top' or 'slide top' for same cost (slide top not on all models),
8. Rolls made from high grade steel with carbon nitride (case hardened) rolls,
9. Rolls driven at different speeds to promote a cutting action, thereby reducing dust,
10. Hot dipped galvanized finish, except for guards which are gal sheet,
11. Gear driven rolls reduce noise, increases mill efficiency and lowers maintenance,
12. Grease lines to bearings behind drive components and
13. Standard issue cast iron taper lock pulleys and gears.
